**EYE OF THE CHILD**  
**TRAINING and**  
**CONSULTANCY SERVICES**

## **Train with Eye of the Child MALAWI**

“Welcome to Eye of the Child Training and Consultancy department. The Department has been providing professional and quality training and consultancy services to Organizations and Individuals working with Children in Malawi and around the world since 1998. The department provides both organization based and tailor made training and consultancy services. You are most welcome to contact us for more information”.

### **Tailored training, consultancy and courses services**

The Department design and deliver a wide range of courses and programmes for Institution and Individuals working with children to meet specific needs and requirements. The services include:-

- identifying specific training requirements;
- devising training courses and programmes to meet identified needs;
- delivering the training; and
- Undertaking evaluations on the effectiveness of any training delivered.

The Department can submit a proposal for your approval and deliver the training at a venue and date agreed with you. The department provides participants with a course pack, programmes and other relevant information. If the course you require deals with a specialist subject, department will ensure that one of the trainers has knowledge and experience in that area. All of our trainers have professional training qualifications and training experience.

### **Training Needs Analysis**

An investment well spent brings you the best return. How do you ensure your investment in training is well spent?. Our Training Needs Analysis service helps you to identify precisely the learning needs in your organization. It will also help you to ensure that the learning medium, content and outcome of training reflect your specific needs. We will work with you to find the best way to ascertain what knowledge and skills are needed, whether across the whole organization, or for a group of staff or individuals or your beneficiaries and target audiences.

### **Consultancy Service**

The consultancy services are offered in the area of training, research and evaluation. Arrange to meet with one of our senior consultants to identify your training and development needs. The initial stage of this service is a negotiation either by telephone or a face-to-face consultation meeting with one of our senior consultants who has a wealth of knowledge and skills. During this consultation, your needs are established and the appropriate services will be identified. Once it is clearer what kind of support you require, timescales will be worked out, consultants identified, and a more detailed programme of services will be planned.

Eye of the Child is a registered child rights organization in Malawi. The organization was first launched in 1995. It was registered with the Malawi Government on 14<sup>th</sup> February 1998, under the Trustee's Incorporation Act (1962). It is an active registered member of the Council for Non-Governmental Organizations in Malawi (CONGOMA), National Youth Council of Malawi, and the Non-Governmental Organization Board of Malawi. To promote its activities, the organization has established training department, a research institute and a print and publication house on subjects related to the promotion and protection of children rights in Southern Africa.
